

NRRL2992 – per-gene ploidy, top 50 contigs by size
winner = smallest delta-log-likelihood among d_dip/d_tri/d_tet (0/nan = missing, omitted)

NRRL2992 – genome-wide per-gene ploidy ribbon
each vertical mark is one gene, coloured by winning ploidy (smallest delta-log-likelihood)

ploidy call 2n (diploid) 3n (triploid) 4n (tetraploid)
